## Projects

Responding to Climate Change: The Potentials of and Limits to Adaptation in Norway (PLAN)  
<http://www.iss.uio.no/forskning/prosjekter/plan/info/>

Civil protection and climate vulnerability  
Prosjektansvarlig: Vestlandsforskning  
Prosjektleder: Aall, Carlo Forskningsleder

Adaptation and Mitigation in Urban Planning and Waterfront Development  
Norwegian Institute for Urban and Regional Research (NIBR).  
This project focuses on urban planning and water front developments in Norway. We study how land owners, developers, public planning officers and politicians integrate and synthesize knowledge/information about vulnerability to climate change in their local community and how this information influence the location, design and construction of urban development proposals and planning.
